## **THE FIRM: PATENTWIRE**

Patentwire, an Independent Patent & Technology Consulting Firm, is based in New Delhi, India, with focus on Intellectual Property (IP) protection, enforcement and commercialization. We believe in knowledge driven economy and utility based technology. The expertise at Patentwire includes a wide range of technical fields including Pharmaceuticals, Chemicals, Mechanical, Electrical, Life Sciences, Biotechnology, Electronics, Telecommunication, Software, Information Technology and more.

We endeavor at Patentwire to achieve excellence in patent and technology services. We believe in business and market oriented Research & Development, strategic protection & management of IP, technology market place search, identifying & analyzing new opportunity areas, technology transfers, and commercialization.

Patentwire enjoys a long list of satisfied clients through its success rate in Patents, Designs, Trademarks and Copyrights. The firm has 100% success rate in Design registrations in India. We encourage and support mind to market approach. Patentwire moves hand in hand with its clients through the journey from innovation to a successful commercialization. The professionalism and practices followed at Patentwire are oriented towards "Quality Work, Well in Time".

We are committed towards providing honest and thoughtful opinion to our clients with respect and trust. We aim towards:

- **Thoughtful action to gain IP Protection;**
- **Transparent estimate of costs and expected expenditures;**
- **Transparency in our services and limitations;**
- **Well drafted and well structured report and opinion relating to a work done;**
- **Better filing and prosecution strategy; and**
- **Your success and satisfaction towards our services.**

## **CREDENTIALS**

In a short period of seven years since its inception, Patentwire has kept adding achievements to its credit. While securing IP rights for its clients, Patentwire is recognized amongst the most sought after Consulting Firms. Team Patentwire is proud to have following credentials so far (and still counting....):

- **Patentwire has been empanelled by various Government Organizations and Public Sector Undertakings;**
- **Team Patentwire has acted as resource persons during drafting and development of various IP Policies by Government bodies;**
- **Patentwire has been associated in capacity of 'Knowledge Partner' and 'Sponsor' in various IP related programs at various levels including those organized by Indian Government, Universities as well as Private Institutions;**
- **Team Patentwire is member of the Steering Committee of Federation of Indian Small & Medium Enterprises (FISME), New Delhi;**
- **Team Patentwire is faculty on Panel of DC-MSME, Ministry of Micro, Small and Medium Enterprises, Government of India;**
- **Patentwire has been proudly entrusted with first ever Pilot Project of Ministry of MSME on Auto-Component Manufacturers Cluster in Delhi-NCR. The aim of the study is to provide expert opinion and recommendation through exhaustive IP Audit Report;**
- **Patentwire has been covered by print media on various occasions;**
- **Patentwire has also been covered recently by National Television (RSTV) as a success story.**

## **SERVICES**

Patentwire offers a wide range of services in the field of Patents, Design and Technology. Dedicated teams take care of the following wings at Patentwire:

### **PATENT ANALYSIS DIVISION**

The team handles all pre-filing actions starting from invention analysis, determining course of action and best strategy for an Invention. Searches such as Prior art, Invalidity, FTO with relevant opinions and related technical inputs are provided by this division. In case of negative search results designing around and other suitable strategies are identified. The division devises most suitable claim strategy, handles drafting of specification and other related documents.

## **FILING & PROSECUTION DIVISION**

The team takes care of filing and post-filing requirements in Patent matters. Commencing from docketing to maintaining records the team is involved in dedicated manner in various aspects of filing and prosecution.

### **InkPat**

InkPat is involved in Patent Illustration services for in-house cases as well as outsourcing projects. We have draftsmen having rich experience in Patent Drawings and Illustrations. InkPat provides quality services at very competitive price.

## **IP BAZZAAR**

Since commercialization is a tough as well as an extensive assignment in itself, generally, IP fraternity and inventors themselves refrain from undertaking such endeavors. IP Bazaar bridges this gap by commercializing Patents and Technology. Patentwire and its Team have access to a wide network of enterprises by virtue of its empanelment on various Government Institutions and hence the target audience for Patent and Technology is in its reach. This helps our IP Bazaar wing in successful commercialization and Technology Transfers. To add on, Patentwire executes commercialization on 'Success Fee' model. This gives a transparent, fair and economically viable deal to our clients resulting into immense trust.

## **KNOWLEDGE PROCESS OUTSOURCING & LITIGATION SUPPORT**

Dedicated team at Patentwire takes care of various Knowledge Process projects outsourced to it. The wing handles Prior Art Searches, Freedom to Operate Analysis, Invalidation Searches, State of the Art Searches, Technology Scans and Landscapes, Claim Analysis, Patent Illustrations, Drafting of Patent Specifications and related Documents, and specially designed project packages. The team also handles prosecution support for US Applications including drafting of response to Office Actions.

## **DESIGNS**

The team in Design wing of Patentwire is dedicated for design matters. We are proud to have a 100% success rate in Design Registration till date. The level of quality of documents is kept high right from the beginning so as to reduce the number of objections and increase the probability of allowance.

## **TRADEMARKS & COPYRIGHT**

We also deal in other IP services like Trademark and copyright with same confidence as in Patent matters with very high success rate. The quality of services provided by this wing is commendable and competitive in price.
