Diagnose IP™: Identifying Prodigies at Your Place: One needs to view through different angles to judge the true credentials of a business house. IP is one of them. With a specialized process developed at Patentwire, one can identify the potential IPs existing in an organization. Diagnose IP™ further assists in indentifying prospective IPRs an organization can have or develop.

IP Bazaar™: A step towards IP Commercialisation and Technology Transfer: Patents can not only preserve, but create market share, and Patentwire is dedicated to its clients to assist them in commercializing their patents, know-how and confidential information to its maximum potential with its industrious and resourceful team. We work

closely with researchers and organisations on their R&D agreements, licenses and technology transfer agreements. In case of acquiring or selling businesses, we offer specialist advice and conduct reviews and assessments of patents and other intellectual property to ensure the effective valuation and transfer of intellectual property so that one strikes the best deal one can. Further, effective licensing enables one to maximise the commercial potential of the patents. We also advise on awarding and accepting licences of patents and related know-how, to add that vital competitive edge to a business, and establish invaluable commercial relationships.

We always overestimate the change that will occur in the next two years and underestimate the change that will occur in the next ten. Don't let yourself be lulled into inaction.
